DESIGN & MANUFACTURING
OF **VENDING MACHINES**

COMPANY PRESENTATION

WHO WE ARE :

LOGIMATIQ Système designs and manufactures all types of vending machines and their associated management software. R&D is at the heart of the company; we develop custom products that adapt to your evolving needs.

Our team integrates new technologies and adapts or creates automated solutions at the request of our customers.

WHY LOGIMATIQ :

For over 20 years, LOGIMATIQ Système has been the leader and expert in consumables management.

Present in Europe and North America, our machine fleet consists of over 1,000 vending machines.

We conduct a quantitative study of your consumption to guarantee you the right machine.

Our machines benefit from local maintenance and local service thanks to our national network.

7 rue de l'Aigue
69780 Saint Pierre de Chandieu

EPIMAT

AUTOMATED DISPENSING MACHINE TO BETTER MANAGE PPE

EASY, FAST, AND INTUITIVE NAVIGATION. JUST CLICK ON THE PHOTO AND TAKE YOUR PPE...

Choose eco-friendly and economical distribution of your PPE. The EPIMAT is the essential tool for managing your PPE.

The EPIMAT is custom-assembled to meet your needs. Two chassis sizes are available, with capacities ranging from 36 to 806 locations. The EPIMAT is controlled by a personal computer and is equipped with a touchscreen and a badge reader adapted to your company's technology.

The EPIMAT is available 24/7 and guarantees that employees are using the correct PPE.

WITH EPIMAT :

- Significantly reduce your consumption (30 to 40%).
- Each item is collected by swiping a customer badge. We adapt the reader to your badge technology.
- Manage your inventory electronically:
 - View stock levels in real time,
 - Avoid stockouts,
 - Receive stock alerts.
- Easy to install, the EPIMAT operates independently of the company network; there's no need for an RJ45 Ethernet port; the machine uses the GSM network (4G or lower).

BENEFITS

- ✓ Ease of use.
- ✓ Permanent product availability and inventory. (24/7)
- ✓ Traceability of inputs and outputs.
- ✓ Ability to manage from 1 to 500 references.
- ✓ Simplified inventory management, Stock alerts, access rights, consumption history, etc.
- ✓ Easy installation, only one electrical outlet required.
- ✓ Compliance with recommendations validated by the prevention department.
- ✓ Reduced consumption and optimized work time for your team leaders.

TOOLMAT

THE SOLUTION FOR CUTTING TOOLS
AND INDUSTRIAL CONSUMABLES

NO LONGER RISK STOPPING YOUR PRODUCTION

Your tool consumption is difficult to quantify! Our TOOLMAT automatic dispenser simplifies your task.

TOOLMAT is a custom-built machine with a capacity of 806 slots.

Categorize your tools by family and facilitate searches by reference, code, or keyword; navigation is intuitive and fast.

TOOLMAT manages your tools with automatic logging, tracking your tools, last use, usage time, alerts in case of non-return, etc.

WITH TOOLMAT :

- Organize your tools according to your criteria.
- Provide your users with maximum technical information.
- Manage your inventory electronically: automatic lockers with returns management.
- Centralized database with consumption analysis:
 - Quantities in stock,
 - Financial values,
 - Machine fill rates,
 - Complete statistics of your production costs,
 - View inventory status in real time,
 - Avoid stockouts,
 - Receive alerts.
- Secure and optimize your consumption.

BENEFITS

- ✓ Permanent product availability (24/7).
- ✓ Traceability of incoming and outgoing orders.
- ✓ Automated and permanent inventory.
- ✓ Simplified inventory management software (stock alerts, access rights, consumption history, etc.).

HIGH-LEVEL MANAGEMENT SOFTWARE

Machine management is simplified by the combination of 4G and the cloud. All our machines are equipped with a functional management software package.

Secure access to the machine without going through the company network, and the software requires no installation.

Simply connect to the software via your internet browser and log in using your personal login and password, with unlimited access.

The software also allows you to manage your entire machine fleet over a network.

It is very easy and intuitive to use, and offers numerous features.

- Consumption reports, Excel export.
- Automatic stockout alerts and restocking.
- Define access rights, employee profile types, and desired quotas.
- Real-time inventory overview.
- Consumption history.
- Print items to replenish.
- Automatic link with your ERP, consumption export, integration of employee entries and exits, and assignment changes.

AFTER-SALES SERVICE ATTENDED TO YOUR NEEDS

Nous garantissons le bon fonctionnement de nos machines et la fiabilité de notre service grâce à notre expertise reconnue sur le marché depuis plus de 20 ans.

- Management software training.
- Remote maintenance via mobile phone.
- Integration of employee and product data.
- Turnkey - Machine start-up as soon as it's installed on site.
- Equipment warranty for the entire duration of the contract.
- Online support.

SIMPLIFIED SETUP

Machine management is simplified by the combination of 4G and the cloud.

Secure access to the machine with no connection to the company network

Cloud Management software

In case of a GSM network failure, the machine remains operational

Remote intervention by our technicians

Secure connection for remote machines management

SERVER
Logimatiq secure cloud system,
GDPR compliance

Data exchange without connecting to your network

Connect with a web browser (Google Chrome, etc...)
