

VETIMAT

AUTOMATIC RECOVERY MACHINES
THE BEST WAY TO HANDLE DIRTY LAUNDRY

Product description

Vetimat simplifies the automated collection and registration of clothing equipped with tags. Ideal for those with their own recording system but wanting reliable control of the recovery of dirty clothes intended for washing, Vêtimat offers a practical solution. This system, equipped with a computer, tag reader and screen, connects to the online database to efficiently manage the flow of clothing.

Clothes drop into a standard cart placed inside, making them easy to transport. Vêtimat can hold 250 to 350 pieces of clothing, with dimensions of 95 cm (width), 200 cm (height), and 100 cm (depth)

Professional management

- Internet connection to retrieve information from the database.
- Automatically registers clothing discharges, only accepting those registered in the system.
- Incorporates a digital camera to record each operation.

BENEFITS

- Significant acceleration of the clothing delivery process
- Possibility of locating it in a more convenient location, without taking up a lot of space
- The device operates 24/7 which is important in case of unusual hours.
- Automation of the process, there is no need to hire more employees
- Complete control of the assortment and its quantity
- Low usage costs
- Reliability
